Chairperson introduction

As the accountable authority of the Seafarers Safety, Rehabilitation and Compensation Authority (Seacare Authority), I am pleased to present the 2018–19 Corporate Plan, which covers the period 2018–2022 as required under section 35(1)(b) of the *Public Governance, Performance and Accountability Act 2013*.

I look forward to working with my fellow Seacare Authority Members, Comcare and industry stakeholders to achieve the objectives of this plan.

Barry Sherriff
Chairperson

Purpose of the Seacare Authority

The Seacare Authority is established under the *Seafarers Rehabilitation and Compensation Act 1992* (Seafarers Act) and sets out its functions and responsibilities. The Seacare Authority also has functions and responsibilities under the *Occupational Health and Safety (Maritime Industry) Act 1993* (OHS(MI) Act).

Our purposes are derived from our functions and powers under the Seafarers Act and OHS(MI) Act. The purposes are to:

1. promote healthy and safe workplaces and appropriate and timely compensation for, and rehabilitation of, injured workers covered by the Seacare scheme
2. maintain a scheme safety net that is able to meet its liabilities.

Environment

The Seacare Authority is operating in a climate of fiscal constraint and policy reforms.

The Government has previously announced its intention to progress reform of Seacare scheme legislation. This reform will likely influence the scheme over the duration of this plan.

There are also structural changes occurring in the shipping industry in Australia. These changes, which are likely to see a decline in the number of scheme participants, may have an impact on the Fund, particularly:

- increasing risk of a default event occurring
- a decreased pool of employers from which to collect a levy to maintain the reserves of the Fund.

The Seacare Authority continuously monitors the operating environment to trends within the industry. These trends assist to tailor our activities and delivery strategies to ensure we adapt to the changing environment and meet our strategic priorities to fulfil our purposes.

Our programs and activities are used by and affect:

- employers and operators covered by the Seacare scheme and their employees
- individuals making claims for workers' compensation against the Fund
- Australian Government agencies, such as Comcare and the Australian Maritime Safety Authority.

Risk oversight and management

The Seacare Authority has a strategic risk register that it uses to identify, monitor and mitigate risks to it and the scheme more generally (Table 1).

The Seacare Authority recognises and responds to environmental factors in its strategic risk register.

Roles and responsibility

The Seacare Authority is responsible for monitoring and maintaining its Strategic Risk Register. The Seacare Authority has identified six strategic risks and nine fraud risks. The Comcare and Seacare Authority Audit and Risk Committee provides independent oversight, ensuring compliance with the processes applicable to the risk management framework.

Risk minimisation

We recognise some risk is inevitable, however the Seacare Authority actively works to minimise risks which may cause harm to our financial position, regulatory authority, reputation, stakeholder relationships, legislative obligations and the health and safety of employees covered by the scheme.

The Seacare Authority regularly reviews its risks (at least annually) to ensure that its understanding of the risks remains current and to conduct scans of the internal and external environment to identify emerging, new and changing risks. The Seacare Authority's risks are summarised in Table 2 below. The Seacare Authority regularly monitors the success of risk controls implemented by it and revises or supplements such controls as is necessary.

Risk management framework

The Seacare Authority applies the principles of Comcare's Risk Oversight and Management Policy and framework which aligns with the Commonwealth Risk Management Policy and complies with international risk management standard ISO 31000:2009 and section 16 of the Public Governance, Performance and Accountability Act 2013.

Table 1: Seacare Authority's strategic priorities against strategic risks (SR)

Strategic priority	Activities	Strategic risk
Perform its statutory functions to promote healthy and safe workplaces and appropriate and timely compensation for, and rehabilitation of, injured workers covered by the Seacare scheme.	Monitor trends in scheme performance.	SR1 SR3
	Proactive engagement with jurisdiction on safety issues, including activities undertaken against the Seacare Authority/ Australian Maritime Safety Authority Occupational Health and Safety Plan.	SR2 SR4
	Promote better practice through the Seacare Awards.	
	Promote the role of and communication with Health and Safety Representatives to facilitate safety awareness and improved safety performance.	

Strategic priority	Activities	Strategic risk
Maintain a scheme safety net that is able to meet its liabilities.	Monitor trends in scheme performance.	SR1 SR3
	Regular reporting on employer compliance obligations.	SR5 SR6
	Undertake educative and advisory activities with the jurisdiction to encourage better practice injury prevention, rehabilitation and claims management to contain cost pressures.	

Key: Strategic risks	
SR1. Seacare Authority fails to anticipate changes in the strategic environment and is unable to adequately respond to changes	SR4. Ineffective scheme administration and service delivery
SR2. Safety performance of scheme deteriorates	SR5. Scheme may become unviable
SR3. Seacare Authority unable to execute intent of Seacare Corporate Plan	SR6. Poor governance arrangements

Capability

The Seacare Authority is not a body corporate and does not employ its own staff. To enable it to perform its functions and exercise its powers, Comcare provides the Seacare Authority with secretariat support and other assistance, and makes available the services of such members of its staff as the Seacare Authority reasonably requires.

Comcare, under the Seacare Authority's direction, is responsible for:

- providing secretariat support to the Seacare Authority
- managing the scheme's claims database
- monitoring and reporting on Seacare scheme performance
- preparing the annual report
- reporting to the Minister
- liaising and communicating with scheme stakeholders and other regulators
- managing the annual appropriation for supporting the Seacare function
- managing the Fund and levy collection
- administering any claims made on the Fund.

The capability of the Seacare Authority is provided by the appointment of Members and Deputy Members with relevant experience and knowledge to contribute to its effective operation and fulfilment of its legislative functions.

Comcare staff (secretariat and other) and its systems (including the Seacare Authority claims database) support the Seacare Authority Members in their roles.

Performance

Purpose 1: Perform its statutory functions to promote healthy and safe workplaces and appropriate and timely compensation for, and rehabilitation of, injured workers covered by the Seacare scheme.

Measure 1: Promotion of healthy and safe workplaces

Intended result

1. Secure the health, safety and welfare at work of maritime industry employees.
2. Protect persons at or near workplaces from risks to health and safety arising out of the activities of maritime industry employees at work.
3. Expert advice is available on occupational health and safety matters affecting maritime industry operators, maritime industry employees and maritime industry contractors.
4. An occupational environment for maritime industry employees that is adapted to their health and safety needs.
5. Cooperative consultative relationship between maritime industry operators and maritime industry employees on the health, safety and welfare of maritime industry employees at work.

Delivery strategy

1. Monitor the operation of the OHS (MI) Act.
2. Develop and implement a plan and actions associated with identified OHS priorities and monitor the operation and success of this plan and actions.
3. Collect, interpret and report on information, data and trends relating to occupational health and safety to relevant bodies (such as Safe Work Australia and the Australian Maritime Safety Authority (AMSA)) and to participants in the scheme to raise awareness of scheme level trends and issues.
4. Formulate policies and strategies and develop and promote codes of practice and guidance relating to the occupational health and safety of employees to assist scheme employers in reducing the incidence of injuries to employees.
5. Educate scheme stakeholders to facilitate compliance with legislated reporting obligations.
6. Monitor the undertaking of the inspectorate functions which are conferred to AMSA under the OHS(MI) Act.
7. Accredite occupational health and safety courses for the purposes of section 47 of the OHS(MI) Act.
